Experience

Full Stack Developer Jr

Feb 2024 – Aug 2024

Hybrido Studio

- Full Involvement in the **analysis and development** of a hotel CRM using **Scrum** as an agile methodology. I used **TypeScript** with **React** for the **frontend**, along with libraries such as **Ant Design**, **Zustand**, **Tailwind**, **i18n**, and **Axios**. For the **backend**, I utilized **Node** in a microservices architecture with AWS Lambda and **PostgreSQL** for the **database**. Additionally, I maintained weekly communication and meetings with the client for progress presentations and gathering new requirements.
- Participated in the development of a **mobile app** with **React Native** using **Expo** to adapt an existing web CRM to a mobile app version.
- Maintained existing projects by fixing bugs and adding new features requested by the client, using the aforementioned technologies and incorporating **MongoDB**, **Redux**, and **Express.js**.

Technologies and Abilities

- | | | |
|----------------------------|-----------------------------------|-----------------|
| - JavaScript | - React Native | - Redis |
| - TypeScript | - Git | - Neo4J |
| - React | - SQL: (PostgreSQL, MSSQL) | - Python |
| - Node: (+ Express) | - MongoDB | - Java |

Education

Associate Degree in Software Development

Mar 2022 - Dec 2024

UADE

MongoDB Certification - Node.js Developer Path

Feb 2024

MongoDB University

[See official MongoDB certification](#)

Languages

- | | | |
|-------------------------------------|--------------------------|-----------------------------------|
| - English: Advanced (B2-FCE) | - Spanish: Native | - Portuguese: Intermediate |
