Experience

Full Stack Developer Jr

Ago 2025 – Present

Teamcubation

- Development of a mobile app for shopping malls using **React Native**, implementing **Apollo Server** and **GraphQL** in a Brackend-for-Frontend architecture, and building an API with **Node + Fastify**, integrating **Redis** for caching and performance.

Full Stack Developer Jr

Feb 2024 – Ago 2025

Hybrido Studio

- Developed various CRM systems from scratch, participating in **analysis, design and development** using **agile methodologies (Scrum + Kanban)**. Maintained direct and continuous communication with clients.
- Implemented **Frontend** using **React**, **React Native** (Expo), **JavaScript**, **TypeScript**, **CSS**, **Tailwind**, **HTML**, **Zustand**, **Redux**, **i18n** (multi-language), **Axios**, Ant Design.
- Built **Backend** using **Node.js**, **NestJS** and **Express.js**, in both monolithic and **microservice architectures** deployed on **AWS Lambda**, with **PostgreSQL** and **MongoDB**.
- Integrated **AWS cloud services** such as **Pinpoint** and **Firehose** for email and SMS campaigns, including interaction metrics.
- Maintained existing projects: **resolved bugs and developed new features** based on client requirements.

Technologies & Skills

Languages: JavaScript, TypeScript, Python, Java

Frontend: React, React Native, CSS, Tailwind, HTML, Zustand, Redux, Axios, i18n, Ant Design

Backend: Node.js, NestJS, Express.js, Fastify, GraphQL, Apollo

Databases: SQL (PostgreSQL, MSSQL), MongoDB, Redis, Neo4j

Cloud/DevOps: AWS Lambda, AWS Pinpoint, AWS Firehose, Git (GitHub, CodeCommit)

Education & Certifications

Associate Degree in Software Development — UADE

Mar 2022 - Dec 2024

Neo Certified Professional — Neo4j GraphAcademy

Oct 2024

[See credential](#)

MongoDB Node.js Developer Path — MongoDB University

Feb 2024

[See credential](#)

Languages

- English: Advanced (B2-FCE)

- Spanish: Native

- Portuguese: Intermediate
